### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Larry Vierra on June 22, 2005.

The application has been amended as follows:

***In the claims:***

In claim 29 at line 1 before the word "network" insert "area".

In claim 29 at line 2 before the word "switch" insert "storage".

In claim 29 at line 4 before the word "switch" insert "storage".

In claim 42 at line 1 before the word "network" insert "area".

In claim 42 at line 2 before the word "switch" insert "storage".

In claim 42 at line 54 before the word "switch" insert "storage".

**REMARKS**

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

US 2002/0057684 A1      Provisioning of scalable networked environments via network switches.

**REASONS FOR ALLOWANCE**

3. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach nor suggest a storage area network and method for use therein having first and second storage switches each provisioning/including descriptions of virtual targets using storage resources/LU's of physical devices, wherein the virtual targets are associated with a user domain accessible via the first switch, and wherein an initiator connection is provisioned or described by the second switch, from the first switch to the second switch. As summarized on the attached Interview Summary, the apparently closest reference Miyamoto is directed to network switches that provision virtual networks, rather than the recited storage switches that provision virtual targets, these being recognized as storage locations or a pool of storage.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
